

Construction Site Lead III

[Apply Now](#)

Company: Scruples Resource Limited

Location: 155, QIT

Category: other-general

MAIN FUNCTIONS

- Lead Site Safety
- Lead company site team (as assigned) for completion of construction activities in accordance with project objectives, priorities, and contract specifications
- Serve as member of the Project Team (PT) when project assigned
- Oversee the execution of fabrication, construction, and hookup
- Coordinate activities of site safety, technical, and quality inspection personnel
- Determine if corrective actions are needed in order to meet project objectives, and work to have these implemented
- Coordinate site interfaces between contractors (and subcontractors) with Production Operations, Drilling, and other ongoing projects as applicable
- Report progress, performance, initiatives, issues, and challenges to Construction Site Manager or Project Manager as appropriate

TASKS AND RESPONSIBILITIES

- Champion the Company Sites Leadership Expectations
- Champion on-site safety awareness and safe performance with contractor and among Project Team members
- Lead/assist in preparation and development of construction planning deliverables (Pre-Check Point 2)
- Interface with contractor on a day to day basis

- Provide input in the review and development of contractor's detailed plans and procedures
- Monitor and appraise contractor's performance and recommend corrective action to be taken where deficiencies are detected; verify actions are taken
- Coordinate resolution of construction related issues with guidance from supervisor
- Establish, implement, and maintain verification process for mechanical completion
- Utilize best practices, Comes, and other current Construction systems/tools
- Ensure appropriate materials management system is implemented at site
- Coordinate with on-site personnel regarding planning and implementation of fabrication, construction, and mechanical completion activities
- Participate in company's learned reviews and provide input to close-out report sections upon completion of work
- Ensure execution of the contract is in compliance with contract specifications
- Ensure change requests are in accordance with Management of Change Plan
- Provide input to appraisal process for assigned site personnel
- Manage the project business services and contracting and materials management organization and functional interfaces through the Execution Stage

SKILLS AND QUALIFICATIONS

- Experience in-field Construction planning, execution, and completions
- Prior site experience
- BS in Engineering, Construction Management, or Technical degree
- Willing to travel (domestic/overseas) to project sites
- Past Construction Site Lead experience on major capital project
