Viathan Engineering is committed to producing and distributing 24/7 reliable power to underserved governmental, industrial, commercial and other service markets around the country. Their mission is to enable life through the provision of innovative/integrated energy solutions. They are mindful of the huge responsibilities this involves hence they have carefully put together a team with knowledge of the power supply value chain. It is a big dream but they are intensely focused, unwaveringly committed and believe in the possibilities.

If interested ...

Join our partner's dynamic team as **Corporate Finance Manager**, a role where you become a vital contributor to the company's strategic planning process. In this capacity, you'll collaborate with cross-functional teams, including Gasco, Operations, Projects, FCS, and Finance, to identify, evaluate, and analyze evolving strategic priorities.

Your mission...

As the **Corporate Finance Manager**, your responsibilities will encompass setting strategic objectives, evaluating market assessments, advising on business/investment opportunities, and steering the capital allocation strategy.

Your major role..

You act as the primary contact for budget and financial inquiries while maintaining the functionality of corporate models.

Keys for Success...

Evaluation Key Evaluate, define, and prepare market assessments and pricing analyses for power and gas sales.

Appraisal Key Conduct appraisals on potential business/investment opportunities and provide strategic advice.

Support Key Own and support the capital allocation strategy and review process.

Maintenance Key Maintain and update consolidated corporate models, including strategic/business plans and forecasts.

Investment Key Prepare investor relations documents, including board presentations.

Support Key Provide financial integration and capitalization support, offering insights on M and amp;A activities.

Budgeting Key Assist in understanding variances to budget and act as the primary point of contact for budget inquiries.

Research Key Conduct research on industry trends, pricing, and comparable indicators, advising Management accordingly.

Your financial impact...

Taking charge of business case reviews, information memoranda, strategic plans, financial models, and capital budget-specific roles, plays a pivotal part in the company's financial and strategic success.

On navigating financial management challenges...

You are to strategically manage finances, ensuring sustainable and affordable energy access while addressing the financial intricacies of such communities.

Your career milestones ...

Minimum 5 years' post NYSC professional experience in financial analysis and reporting; consulting experience is advantageous.

Bachelor's degree in Finance, Economics, Accounting, or a related field.

Master's degree and/or professional certification in a related field.

Expertise in Mergers and amp; Acquisitions, Debt and Equity Instruments, Deal Structuring, Corporate and Capital Budgeting, Investment Appraisals, Investment Management, Strategic and Business Planning, IFRS Reporting Standards, Financial

Statement Analysis, and Financial Modeling.

Proficiency in Microsoft Office suite and knowledge of the Power/Energy industry.

Excellent presentation and interpersonal skills, able to work with people at various levels.

If you have these, it'll set you apart...

- Analytical mindset, excellent written and verbal English.
- You are flexible, a team player, self-motivated, and able to maintain a high degree of confidentiality.
- You are organized with the ability to handle multiple tasks simultaneously and work well under pressure.
- Meticulous attention to detail.

The goodies...

Opportunity to work with a leading brand

Competitive salary

Your journey begins by submitting your application. Seize this opportunity to drive strategic excellence and contribute to the financial success of a dynamic organization; your financial expertise and strategic vision shapes the future!
