Front-End Developer (REACT)

Apply Now

Company: NoemDek

Location: Lagos

Category: computer-and-mathematical

About Us

NoemDek is an EPC firm incorporated in Nigeria in 2012, to provide specialized services to the oil and gas, power generation, FMCGs etc. Our primary focus is to employ our specialized, technical expertise and motivate our team of professionals in contributing positively to the Nigerian petroleum and energy main industry in particular. We are a powerhouse of technology, creativity, and expertise.

Description

This role bridges the creative and technical aspects of project delivery- you must design and implement the user interface and engineer the experience of every site/software being put out by the business.

You are expected to integrate front-end and server-side technologies and merge the technical architecture with creative designs and art direction. To achieve this integrated approach, you must have a fundamental understanding of the creative aesthetic while implementing technically across various platforms and frameworks and participate in business development, project planning, and knowledge leadership.

Essential Duties & Responsibilities

Responsible for architecting and defining the Front-end framework to solve complex designs and interactions that reflect the creative and art direction provided by the Product Designer

Responsible for building functional Front-end applications.

Responsible for mentorship and guidance to technical team members on all project activities

Able to shift between a creative and a technical focus depending on the project need and/or the type of project

Participates in developing supporting proposal materials for projects

Participates in scoping and planning work

Write technical documentation (admin guides), white papers, and presentations, contributing to determining internal processes.

Be a thought leader in Front-end technologies and space.

Similar duties as assigned by your Head of Department or the CEO.

Skills

Proficient understanding of HTML5, CSS3, and JavaScript.

Experience with front-end frameworks such as React, Angular, or Vue.js.

Knowledge of responsive design principles and mobile development.

Familiarity with version control systems, especially Git.

Strong problem-solving and debugging skills.

Application Process

To apply, please fill out the application and upload your resume. We eagerly anticipate reviewing applications from experienced professionals ready to contribute to the success of NoemDek in Lagos, Nigeria. Join us in ensuring the safety and satisfaction of our clients at NoemDek.
