

Junior Data Scientist

[Apply Now](#)

Company: Software House

Location: Nigeria

Category: computer-and-mathematical

At Software House (Permanent), in Portugal

Salary: €18.000 - €25.000

Expires at: 2027-06-18

Remote policy: Full remote

We are dynamic software house that excels in delivering cutting-edge applications and mobile solutions. With a passion for innovation, our expert team crafts robust software applications, responsive websites, and customized solutions that cater to your unique business needs. We thrive on transforming ideas into reality, empowering companies' digital presence and driving their success forward. We have a dynamic and collaborative work environment that fosters creativity and offers ample opportunities for professional development. Are you a recent graduate passionate about Data Science and ready to kickstart your career? Join our fast-growing team as a Junior Data Scientist!! We're seeking talented individuals who are eager to dive into complex datasets, uncover valuable insights, and drive data-informed decisions to propel our business forward.

Key Responsibilities:

Collaborate with cross-functional teams to understand data requirements and develop data-driven solutions for various business challenges

Utilize statistical analysis techniques, data mining, and machine learning algorithms to extract insights and patterns from large-scale datasets

Collaborate with stakeholders to define project goals, design experiments, and develop

predictive models and algorithms

Clean, preprocess, and transform data to ensure its accuracy, consistency, and reliability

Develop and maintain data pipelines and workflows to streamline data collection, integration, and analysis processes

Create visualisations, reports, and dashboards to communicate findings and present complex information in a clear and compelling manner

Stay updated with the latest advancements in data science techniques, tools, and technologies, and apply them to solve business challenges

Collaborate with senior data scientists and mentors to enhance your technical skills and knowledge

Main requirements

Bachelor's or Master's degree in a quantitative field such as Data Science, Computer Science, Statistics, Mathematics, or similar.

Strong foundation in statistical analysis, predictive modelling, and machine learning techniques

Proficiency in programming languages such as Python, R, or SQL

Experience with data manipulation, cleaning, and preprocessing.

Familiarity with machine learning frameworks (e.g., scikit-learn, TensorFlow, or PyTorch) and data visualisation tools (e.g., Matplotlib, Seaborn, or Tableau)

Excellent problem-solving and critical-thinking skills, with an ability to approach complex business problems analytically

Strong communication and collaboration abilities to work effectively in a team-oriented environment

Ability to adapt to a fast-paced and rapidly changing business landscape

Benefits & Perks

Competitive salary and comprehensive benefits package.

Opportunity to work in a fast-growing startup environment with a talented and passionate team.

Professional growth and learning opportunities to enhance your skills and knowledge.

Flexibility in working hours and location.

A supportive and inclusive work environment that values creativity and innovation.

Join our team of dedicated professionals and contribute to the success of our innovative applications and mobile solutions.
