

## Senior Android Developer - Kotlin

[Apply Now](#)

Company: Cross Border Talents

Location: Nigeria

Category: computer-and-mathematical

We are looking for an Android developer responsible for the development and maintenance of applications aimed at a vast number of diverse Android devices. Your primary focus will be the development of Android applications and their integration with back-end services. You will be working along-side other engineers and developers working on different layers of the infrastructure. Therefore, commitment to collaborative problem solving, sophisticated design, and creating quality products is essential.

### Responsibilities

- Writing clean and efficient code for Android applications
- Monitoring the performance of live apps and work on optimizing them at the code level
- Identifying and resolving bottlenecks, rectifying bugs and enhancing application performance
- Performing unit and instrumentation tests on code
- Collaborating with cross-functional teams to define and design new features
- Staying up to date with new mobile technology trends, applications, and protocols

### Requirements

You have prior experience as an Android Developer using Kotlin, Java, Android SDK and reactive programming

- Knowledge of SOLID principles

- You have experience in publishing an application on the Google Play store
- Proven work experience in design patterns mobile architecture using frameworks such as MVVM/MVC/MVP
- Familiarity with firebase integrations
- Familiarity with RESTful APIs to effectively integrate Android applications
- Understanding of Google's Android design principles and interface guidelines
- Proficient understanding of code versioning tools such as Git
- Familiarity with continuous integration (Bitrise, Fastlane, etc)
- Familiarity with various testing tools
- You are a problem solver with good analytical skills
